Certification of Completion for Laboratory Safety Training
Biology Education Program

Students in the Biology Education Program at SIUC must complete the "Laboratory Chemical Safety and Disposal" and "Biological Waste Handling and Disposal" training sessions offered by the Center for Environmental Health and Safety. Training must be completed prior to student teaching; this certificate must be signed and included in the student's Gateway Portfolio.

All information and signatures below must be completed. Please print legibly.

To be completed by the student:

Student Name: _____

DAWG Tag: _____ Email: _____

Year and Semester of Safety Training: _____

To be completed by the Laboratory Chemical Safety and Disposal instructor:

My signature below certifies that the student identified above completed the "Laboratory Chemical Safety and Disposal" training session on the date indicated.

Instructor Name: _____

Instructor Signature: _____ Date: _____

To be completed by the Biological Waste Handling and Disposal instructor:

My signature below certifies that the student identified above completed the "Laboratory Chemical Safety and Disposal" training session on the date indicated.

Instructor Name: _____

Instructor Signature: _____ Date: _____
